

AMENDMENT TO ABSTRACT

Please amend the Abstract as follows:

~~There is provided a~~ A supplementary visual display system (10, 200) ~~for use in conjunction with~~ includes a display device (40) ~~including having~~ an image display region (50) ~~for presenting images to a viewer (15).~~ The system (10, 200) ~~comprises~~ includes :

(a) — ~~one or more illumination sources (100a, 100b, 110, 120) which~~ that at least partially peripherally surround the image display region (50) and/or project illumination radiated therefrom so as to illuminate a region visually appearing to the viewer (15) to at least partially peripherally surround the image display region. ~~(50);~~

(b) — ~~monitoring components for monitoring audio program content and/or intensity and/or color and/or depth information in the entire image display region (50) or in one or more sub-regions (300, 310, 320, 330) of the image display region (50) when images are presented thereon and generating corresponding image and/or audio indicative signals;~~

and

(c) — ~~controlling components (500) for controlling~~ A control device controls light radiation emitted in use from the one or more illumination sources (100a, 100b, 110, 120) in response to at least one of the image and/or audio indicative signals so as to provide at least a partial spatial extension of the image display region ~~(50).~~
